

A Partner Ministry of Cru / Campus Crusade for Christ

August 5, 2013

Dear Friends,

They traveled collectively over 42,000 miles to attend...29 students representing 18 states training in 5 different healthcare professions. And your prayers and partnership helped make it all happen.

While our 13th annual Whole Person Care Preceptorship is over, a new group has been launched to impact their world for Christ.

Enclosed is the newsletter these students wrote and produced. You'll read how God showed up in their lives, taught them to care for both the physical and spiritual needs of their patients, and empowered them with the Holy Spirit.

They are heading back to their schools - UCLA, Florida, Harvard, Arizona, and others. And because of our new Pre-Pro Project (see page 4), our hope is that they are even better equipped to train their Christian classmates to live out their faith.

Thank you for joining with us in this ministry to which God has called us. And please join us in praying that God would continue the work He has started in the hearts of Dustin, Pamela, Chris, Cori, and all the others. Pray also that God would propel us ahead as we jump into another year of ministry among healthcare students. The local freshmen medical class arrived last Thursday and already we're building relationships.

Sincerely,

Bob and Diana Mason
