

October 15, 2013

Dear Friends,

We hope your fall is off to a great start. Tomorrow Bob and five others will be traveling to Zhytomyr, Ukraine for our first ever European METS Whole Person Care Conference. Some 100+ Christian Ukrainian physicians and health professionals have registered to attend. Please pray God would use this training significantly in their lives.

Last weekend we were contacted by a former medical student who regularly attended our weekly spiritual care practicums in California. She is now an attending physician at a key Christian residency program and plans to make spiritual care practicums part of the curriculum for their doctors in training. Please pray God blesses her strategy. God bless!

*Bob & Diana Mason*
