

Bob & Diana Mason

Medical and Dental Ministry

January 2016

During her first year of pharmacy school, we connected with Deborah (pictured between Diana and Bob), a bright and energetic student who loves Jesus and is eager for others to know him as well. She attended one of our METS Whole Person Care Conferences in California. As she learned about how she could share Christ's love with her patients, God began to give her a vision for how she might influence her student and professional colleagues to do the same.

Over the next two years, she would bring students to our weekly spiritual care practicums at the university Medical Center to get training and experience in integrating their Christian faith into their patient care. She invited Bob to speak at their local Christian Pharmacy Fellowship International (CPFI) on patient spiritual care. She brought others to go with us on our Dominican Republic Medical Missions trip.

Last fall she asked if we might be interested in hosting a joint whole person care training conference with CPFI and the School of Pharmacy. We jumped at the opportunity. Though this was a huge faith step for Deborah, God worked! Students from various campuses, professionals from around the area, and faculty from the School of Pharmacy attended.

As students learned, God piqued their hearts to do more. Many want to continue getting training at our weekly practicums. Some will go with us on our March Medical Missions Trip. Others want to utilize their newfound skills on their school rotations.

A few days after the conference ended, the School of Pharmacy Director of Academic Affairs (who had attended this conference) invited Bob to lunch and introduced him to the Assistant Dean of for Assessment and Professional Affairs. Both want to explore how we might help them train their pharmacy students in whole person care.

Thanks for standing with us and making this happen through your prayers and gifts. Thanks for impacting Deborah for the Kingdom. Please pray that God would continue to work.

Bob & Diana

A caring community passionate about connecting people to Jesus Christ
