Medical and Dental Ministry

March 2016

Early 2016 Ministry Journeys

You are making a difference in the lives of so many people! Thank you!

Last year the Dean of a new medical school in North Carolina asked Bob to bring our team of healthcare professionals to their campus to train students and professionals. In February you made that request a reality. Students there began to see and hear how they might spend a lifetime meeting the medical needs of their patients while sensitively being ready to share the life-changing hope that Jesus can bring.

One week later, we traveled to Houston, Texas to host another conference. And while this one also trained students and professionals, it provided an opportunity for some Whole Person Care Preceptorship alumni to serve as faculty and continue on their journey of becoming multiplying disciples. Plus a major medical center that hosted our field practicum was so positive about the experience that they plan to mention it in their accreditation report to the Joint Commission.

Preceptorship alum J.C. Wall explains how to share the Gospel at Houston Conference.

We spent Bob's birthday weekend with Jordan and Jenny in San Luis Obispo where they serve with Cru at Cal Poly.

God is working through you. Thank you! And please pray for the upcoming events below. Maybe you could join us? Info is online at medsn.org.
