

# Bob & Diana Mason Medical and Dental Ministry

April 2016

## 2016 MEDICAL MISSION: DOMINICAN REPUBLIC

For one week in March you helped send a medical team to provide aid to those who needed it. Working through local churches, both the medical and spiritual needs of the villagers and their children were met. Plus, the churches are able to build good will among the people— which often leads to more future opportunities to share Christ.

The **team** consisted of students, nurses, physicians, and pharmacists from across the US. Many of the professionals are alums\* of our summer Preceptorship.

**Triage**—Anne-Marie Copper, RN \* welcomes a patient and his mom.

**All in the Family**— Internist Brian Fong MD, left, prays with a patient and his son, pediatrician Matt Fong MD\*, explains the Gospel using an Evangecube.

**Clockwise**, Dominican GI physician, Carmeline de Lara MD, consults with US pharmacists Carrie Dean\* and Charlotte Yum\*. Med students Bobae Lee and Ben West play with village children. Bob preaches at a local church (only given a few hours notice!). Diana, with Gail Fong RN, lead a children's session.

**Want to join us for the 2017 Dominican Med Mission trip?** Dates are March 18-25, 2017. Contact us if you are interested!

**Thank you!** Your investments and prayers are making a difference in the lives of so many—both at home and abroad.
