Medical and Dental Ministry

February 2017

Cuba VI

In early December we returned to Cuba for the sixth time to equip Cuban Christian healthcare professionals to effectively care for the spiritual needs of their patients.

Building National Leaders—shortly after landing in Havana, our US faculty team trains the Cuban physicians who will help lead many of the sessions.

Launching New US Leaders— MSN is about *multiplying* people for ministry. We first connected with two of our faculty, Teresa Tan, MD and Allison Wu, DPT, when they attended the summer Preceptorship as students. Now they are living on mission in the US and beyond. At right, Teresa leads a session in Cuba.

Practical Application—each conference includes a field practicum. Here, part of the group prepares to visit local facilities to practice providing whole person care. During two afternoon practicums, many saw patients come to Christ.

Building the Local Church— Bob visits with the leader of the Western Cuban Baptist Convention, a partner in this conference strategy.

Cubans love their classic cars! Though many now contain European engines and parts, the body is unmistakably American.

Testimony Training—Diana helps conferees become more effective in sharing their salvation story with others.

Whether it's building healthcare students into leaders in the US or equipping nationals abroad, you are helping change lives worldwide. Thank you!

Bob & Diana
