

BOB & DIANA MASON

Medical and Dental Ministry

***“This fills a need that I
have been trying to find!”***

January 2018

That’s exactly what Ben, a senior pre-med student, wrote at the Cru Winter Conference in North Carolina. Bob had just lead a session on “Serving Christ in the Healthcare Professions.” Another student wrote, *“It really surprised me how many people actually want their spiritual needs addressed.”*

Each Winter, Cru hosts 9 Winter Conferences across the US. Students are challenged with outstanding biblical teaching calling them to find life and purpose in Jesus and live on mission for a lifetime. This year, we were invited by 7 conferences to speak to undergrad students who are aspiring to a career in healthcare.

Katie, a pre-physical therapy student said, *“This is an important topic that I haven’t learned about in any of my school classes.”*

Since these sessions often occur on the same day at various locations around the nation, we reached out to our summer Preceptorship alumni to lead. Presenters included a nurse at Baltimore, a physician in Indianapolis, a Mayo Clinic nurse at Minneapolis, a physical therapist in Fort Worth, a physician at Denver, and a medical student in San Diego. And at some conferences, demand for this topic is so high, that students fill the room and overflow into the hallway peering in through open doors.

“This session assures me that choosing physical therapy is a great way to impact people for Christ!”

Thank you for helping tell students nationwide that it is biblical, possible, legal, ethical, professional, and worthwhile to live on mission in healthcare. That is making a difference to hundreds of students and, ultimately, millions of patients.
