

Connecting in a Virtual World

May 2020

“What did you think would happen when you drove yourself into that tree?”

This is not a typical question a nurse might ask a patient in the hospital. But this was not a typical patient. And the nurse, Nicole, is not a typical nurse. She currently serves in the Midwest and attended our 2017 preceptorship.

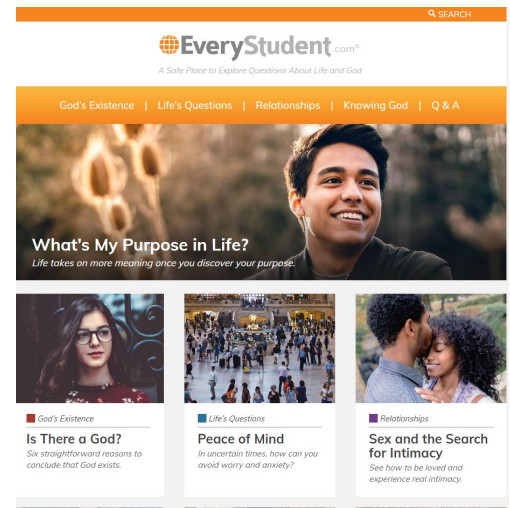

From the chart, she learned her patient had been in a car accident, was paralyzed from the waist down, and had attempted suicide. Before entering the room, Nicole prayed that God would give her wisdom and courage as she cared for this person.

“I do not know...” was the early answer to her question. *“What do you think would have happened?”* the patient asked Nicole.

Due to space limitations, you can find the rest of this awesome story at [medsn.org/covid-19/](https://www.medsn.org/covid-19/). And for an inspiring and absolutely worth-your-time podcast with Nicole (*can play 2X speed!*), go here - <https://www.buzzsprout.com/1041934/3610924-healthcare-worker-nicole-krier-usa?play=true> .

God is working through us and others in an increasingly virtual world. Cru has two incredible sites (everystudent.com and everyperson.com) for those who are searching for God. During the pandemic, unprecedented impact is happening with at least **1 person coming to faith in Christ every 4 minutes through these sites. And this is happening 24/7.**

Virtually, we continued doing the didactic portion of our weekly spiritual care practicums. We’re doing Bible studies and accountability groups virtually. We’re mentoring by phone and Zoom. Though things worldwide are being cancelled hourly, our mission continues.

Please let us know how we can be praying for you. We are incredibly **grateful and blessed** by your standing with us in this mission. Thank you, thank you, thank you!

Bob & Diana

A caring community passionate about connecting people to Jesus Christ

Redlands, CA 92373 * 909-335-9877 * masons@medsn.org * medsn.org * bobdiana.org
