Scatterings

"...and they were all scattered throughout the regions of Judea and Samaria."

It happens every spring. Graduating students are scattered as they complete their programs of study and embark to make their mark on the world.

In Acts 8, the early church experienced increased persecution and was involuntarily scattered to new locations. Many point to this as a time of remarkable growth and expansion for the message of Christ.

Last night we welcomed to our home a group of local senior medical students who attended our summer preceptorship a few years ago. They'll soon be scattered across the United States to begin their residency training. We wanted to recognize their accomplishments and commission them to go forward in proclaiming the truth of Jesus to their interested patients.

Tim Lee, MD encouraged them to establish a connection with the local church even though their time would be extremely limited due to grueling work schedules. Bob reminded them that even as new residents they are already among the best trained in their ability to provide spiritual/whole person care compared to their colleagues and supervising physicians. Ministry board member Andrew Wai, MD offered a commissioning prayer.

We'd be grateful for your prayers for this group and all the other graduates whom God has impacted through this ministry—nurses, pharmacists, physicians, and more. They'll be scattering across the country. From neurosurgery in Kentucky to family medicine in Mississippi to ophthalmology in Southern California. In the same way that the scattering of early Christians in the first century gave increase to the church, pray a similar thing would happen in the towns and villages where these individuals settle.

Bob & Diana

Upcoming Events
JOIN US!!!

June 11-13, Whole Person Care Conference, Redlands, CA
June 10-July 3 Whole Person Care Preceptorship
October 8-9 Whole Person Care Conference, Tulsa, OK
