Waco!

“You can’t teach an old dog new tricks.” Really?

Last month at the Waco Whole Person Care Conference physicians, residents, medical students plus a group of undergrad students from Baylor University were equipped to care for the spiritual needs of patients.

“I have practiced medicine as a Christian for 26 years and still found the conference to be highly practical, insightful and encouraging.”

Doing a conference like this during COVID definitely has challenges—increased patient demands required a last minute conference speaker cancellation and restricted access for patient visits in local hospitals. Yet via a massive Zoom call God provided an abundant supply of preceptorship alums who “posed” as patients plus a new & capable speaker.

This is a much-needed conference! It opened my eyes to how important spiritual care is for everyone. I’m looking forward to using these tools when I see patients next week!

Please pray that God would remind and empower these professionals and students to utilize the skills they gained. And pray that God would be glorified in their journey!

You are making a difference! Thank you!!!

Bob & Diana

Upcoming Events JOIN US!!!

April 7-9, 2022 Speak at CCHF National Convention
June 12-July 9, 2022 Whole Person Care Preceptorship, Redlands, CA
October 7-8, 2022 Whole Person Care Conference, Tulsa OK
