

New Beginnings

Addie Elizabeth Mason was born May 24! This is our first granddaughter and third grandchild. She was enthusiastically welcomed home by her older brothers, Caleb and Jack. Jack kept insisting he wanted to “hold it!” By prior arraignment, we were the first family members called to come help with the boys when Jordan and Jenny left for the hospital. About 4:30 pm on a Monday we learned Jenny would be induced on Tuesday morning. By 6:30 pm we were on the road to San Luis Obispo where they live.

Everyone is doing well. Please pray for this growing family!

Our 2022 Whole Person Care Preceptorship began this week. We’re welcoming students from University of Miami to Yale to Indiana to Mississippi to Puerto Rico to UCLA and beyond. God has blessed us with a great students and great faculty. We’re praying the next few weeks would have lifelong kingdom impact in their lives and in the lives of the patients they meet.

The next few weeks constitute the most productive weeks of our year. Your prayers for us, the students, and the patients they meet are crucial. Thanks for joining with us!

Bob & Diana
