

November 2022

Medical Missions

We just returned from Kentucky where we joined 2,000 healthcare professionals and students at the Global Missions Health Conference (GMHC)—one of the largest Christian medical missions conference anywhere.

Each year Christ followers gather to discuss the tremendous needs, opportunities and strategies to be the hands and feet of Jesus worldwide through healthcare.

This is a great opportunity for us to network—with major mission sending agencies such as SIM, faith based medical schools, Christian residency training programs, healthcare students and professionals. Often we discover new ways we can help equip medical missionaries to care for the spiritual needs of their patients.

It's also a great place to reconnect with those who have attended our Whole Person Care Preceptorship. We usually share dinner one evening with preceptorship alums. Some are still in training. Others are now working. And many are in stages of going overseas themselves to serve in various medical mission hospitals.

There were a lot of commitments and plans that were made last week at GMHC. Would you pray for those who resolved to serve via medical missions? Might you ask God to bless the partnerships that were formed so more could be reached with the hope of Jesus? Can you pray for those students we met who are considering attending the preceptorship next summer?

Finally, pray for our family as we gather for Thanksgiving. Elissa, Logan, Jordan, Jenny and our 3 grandchildren will be with us for several days.

And know how thankful we are for you as you stand with us in reaching, equipping, and sending so many into the harvest.

Bob & Diana

A caring community passionate about connecting people to Jesus Christ

Upcoming Events **JOIN US!!!**

November 17, 2022 Speak to CMDA UCLA
January 12, 2023 Speak at Midwestern Univ. & Rush Univ. Chicago
