

Fall Travel Impact

9 days, 4 cities and states, multiple events. We started in **Chicago** with a METS Whole Person Care Conference. Next we flew to **Washington DC**. Bob spoke 3 times to healthcare students from three different schools. Then we headed to **Kentucky** for the Global Missions Health Conference. We were thrilled to connect with many preceptorship alums from years 2003-2023. Helena Torres, a pharmacist and preceptorship alum, and Bob hosted a session on caring for the whole patient. Here are some responses:

"This conference has fundamentally changed how I see myself as a healthcare provider! Please come back to Chicago regularly to sharpen healthcare professionals for the glory of God!"

Sometimes it feels as if we are alone on this journey, but hearing God's work is encouraging and fills my spirit.

"The conference was a breath of fresh air to my soul which longs to see my patients' spiritual needs met but often feel I'm not ready to meet them. Thanks for the reminder the Spirit is always working."

"This was eye-opening! It's the first time I learned to obtain a spiritual history and share my faith with patients!"

"Your talk was great yesterday, Bob. Both myself and the students really learned a lot from it. I even had a chance to use some of your techniques with one of my patients this morning, which was awesome! "

On the Mall, Washington DC.

With dental students, Univ. of Maryland.

Global Missions Health Conference; Georgetown Med School

We are incredibly grateful for all God is doing in and through the people we met.

During this Thanksgiving season, please know how grateful we are to you for your prayers, partnership and investments. We could not do this without you!

Bob & Diana

A caring community passionate about connecting people to Jesus Christ
