## Cru Winter Conferences—It's a Family Thing

Each year during Christmas break and MLK weekend, Cru hosts conferences for college students. Washington DC, Orlando, Dallas, Indianapolis, Minneapolis and Southern California welcomed thousands of students eager to connect with God, grow in their faith and ministry skills, plus partner with local churches to share Christ through service, food delivery and sharing the gospel.

We, along with medical ministry preceptorship alums, challenged students to live on mission through their lives and professions.

Above med student George in Orlando; PT and nursing students Nathan and Madeline in Indianapolis; Bob in Minneapolis with Nicky Chen, **daughter of the late Yang Chen, MD (founder of our medical ministry)**; nursing student Olivia in So Cal.

Jordan, our son and his wife, Jenny, both serve with Cru at Cal Poly. Jordan (guy far left) ran the plenary sessions for the So Cal conference; Bob and Tiffany Wang, MD with students; Diana leads session on Engaging with God Through His Word.

In all this, you are right there with us. Thank you for impacting so many in so many ways at so many places.

A caring community passionate about connecting people to Jesus Christ

*Bob & Diana*
