

March 2024

Six Weekends

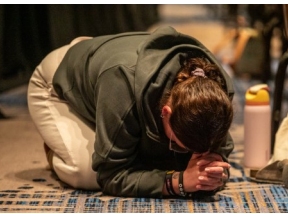

Recently, for six straight weekends, we were on the road. Teaching, networking, challenging, learning and growing in the fulfillment of the Great Commission.

#1—Cru Minneapolis Winter Conference. Even though the lows of 26° felt frigid, it was still the warmest Minneapolis December in 145 years! Bob led a session challenging healthcare students to live on mission with their future patients.

#2—Cru Summer Mission Leaders Training in Dallas. Several hundred Cru staff and student leaders gathered to plan the 100+ student summer missions we'll be doing worldwide.

#3—Cru So Cal Winter Conference. At our Winter Conferences, students are given opportunities to intimately grow in their relationship with God. Ultimately, that's what drives one's passion to take Jesus to a broken world.

#4—Back to Dallas for the METS Whole Person Care Conference. We partnered with Baptist Student Ministries, CMDA and Watermark Church to train a new group of healthcare professionals and students. Days later one of the physicians gave a presentation on spiritual care with patients to her resident physicians.

#5—Fire in Mississippi! After our Jackson METS Conference, a small fire started at Bob's brother's home outside Jackson where we were staying. The local volunteer fire department prevented major damage. Our conference faculty team included a surgeon, cardiologist, dentist, nurse and an international speaker/author.

#6—Near Palm Springs, CA—Bob discusses the need for patient spiritual care with the Board of Directors of a 10 clinic system that cares for the underserved in Los Angeles and beyond. Bob is with Ken Orduna, PhD, the CEO of the system.

God sustained us in these travels and has provided a time of rest since. Now refreshed, Bob leaves for Cincinnati tomorrow to help train more healthcare professionals from across the US.

Bob & Diana

Upcoming Events **JOIN US!!!**
