

## Graduation 2025!

June 2025

**End of An Era** (above) Above is the Tan family. All four siblings attended our summer preceptorship during their time in med school. Caleb, the graduate, (center) begins his ophthalmology residency at Mt. Sinai in New York. Teresa (left) is an OB-GYN doc; Christina (right) is an interventional cardiologist; Michael is an anesthesiologist. All follow Jesus. Mom, Dad, and the family joined us for dinner at our home during graduation weekend.

**Breanna** took our class on spiritual care during med school. Minutes after graduation, she was commissioned a Lieutenant in the US Navy. She'll be completing her internal medicine residency at the Naval Medical Center in San Diego.

**Joseph** begins family medicine residency soon. He attended the preceptorship and later helped teach our classes at the med school. Joe's parents are both physicians & were involved in our ministry with founder Yang Chen, MD.

**Legacy Continues** Med school faculty Andrew Wai, MD and Matt Fong, MD attended the preceptorship as med students. As they train a new generation of physicians, they actively help equip students/residents in Christian spiritual care. **Your partnership & prayers are making a difference and lives are being impacted!**
