

Lots Happening

July 2025

Last Saturday, we completed our 24th annual Whole Person Care Preceptorship. We welcomed students in occupational therapy, nursing, audiology, and medicine. We'll be sharing more on this later.

That same day, we flew to Milwaukee for Cru25, a gathering of all the US-based staff with Cru. There were 4,000 of us there for a time of teaching from the Word, renewal, direction, and community. We arrived near exhaustion, but were refreshed by God and this time together.

Our son, Jordan, and his wife, Jenny, also serve with Cru at Cal Poly San Luis Obispo. We were able to share a few meals with them at Cru 25. Our daughter, Elissa, and her husband, Logan, watched Jordan's 3 kids back home. To keep them entertained, they hosted Camp ULAE (Uncle Logan, Aunt Elissa) which reportedly was "better than Disneyland."

Upon our return to California, we immediately began training the new interns in the Family Medicine Residency program and will have ongoing interaction with this group for the next three years.

The new medical students arrive early in August, so please pray that we can connect with key and teachable Christ followers and be used to introduce others to Jesus.

We're so grateful for your partnership. Thanks for your gracious kindness and consistency in standing with us. And please let us know how we can be

Bob & Diana

A caring community passionate about connecting people to Jesus Christ
